## Participant's report to the National Nominating Authority and the National Contact Point

### Meeting report

In the three weeks after the event, please complete this report. It contains two sections:

1. **Reporting:** this is intended as a feedback on the event, on what was learnt, on how the event will affect your work and on how it will be disseminated. In addition to the ECML National Nominating Authority and the National Contact Point in your country the ECML will use the report<sup>1</sup> in the “Experts involved in ECML activities” section of each ECML member state website (please see <http://contactpoints.ecml.at>).

This section should be written in one of the project's working languages.

2. **Public information:** this is intended as an information on the ECML project and its expected value for your country. The content should be of interest for a larger audience. Thus it should link up to interesting publications, websites, events etc. which were discussed on the occasion of the workshop or which are relevant in your country. The public information should be a short, promotional text of about 200 words.

This section should be written in (one of) your national language(s).

### The completed file should be sent to

- the ECML National Nominating Authority and the National Contact Point in your country (contact details can be found at <http://www.ecml.at/aboutus/members.asp>)
- and in copy to ECML Secretariat ([Erika.komon@ecml.at](mailto:Erika.komon@ecml.at))

within the given deadline.

<sup>1</sup> Only if you authorised the ECML to publish your contact details.

Brief summary of the content of the workshop	A first focus of the workshop is on <b>instruments that describe language teacher competences</b> . During the workshop, we would like to <b>pilot and discuss with you a website</b> that is designed to help teacher educators, teachers, managers etc. to find out more about such instruments and to choose those of interest to them. It is always interesting to be given the opportunity to discuss a common framework. I also found the discussion regarding the difference between

## 2. Public information

Short text (about 200 words) for the promotion of the ECML event, the project and the envisaged publication with a focus on the benefits for target groups. This text should be provided in your national language(s) to be used for dissemination (on websites, for journals etc.).

I find this part hard to fill in at this stage. The ECML event was very interesting and worthwhile but as this was a workshop about Common European Framework for Language Teachers' I am not able to tell you know what this will lead to. There were some very interesting discussions and I am sure that this will enable the project group to develop the framework further. This will then lead to me being able to publish information in many pages.
